

# Money!

Penny = 1 cent

Nickel = 5 cents

Dime = 10 cents

Quarter = 25 cents

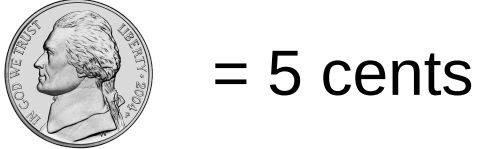

One dollar = 100 cents

# Piggy Bank Math

We just opened our piggy bank and now we  
need to count our money!  
Let's see how much we have saved so far.

First, let's sort our money into groups; Pennies, Nickels, Dimes, Quarters and Dollars. Next, add up the money in each group.

Now, let's add all of our money to get our total.

$$3+5+20+1.00+1.00= 2.28$$

We have \$2.28

Now, it's your turn. Are you ready to count your money?  
Remember your steps.
