

# Introduction

**Synonyms:** These are words which mean the same or are similar to another word.

Some examples would be:

happy= cheerful

tiny=small

**Antonyms:** These are words that have the opposite meaning of another word. Some examples would be:

sad=happy

big=small

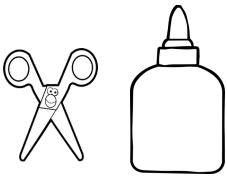

**Homophones:** These are words that sound the same but mean something different and are sometimes spelled differently. An example of this is: be, bee.

**Homographs:** These are two or more words that are spelled the same but have different meanings and origins.

An example of this is: bat.

Homophones are words that sound the same but are different in meaning or spelling.

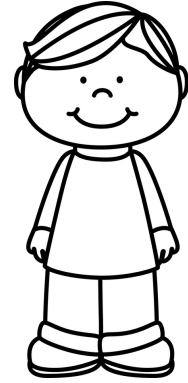

Homographs are spelled the same, but differ in meaning or pronunciation. Homonyms can be either or even both.
