

# Pumpkin Scarecrow Craft

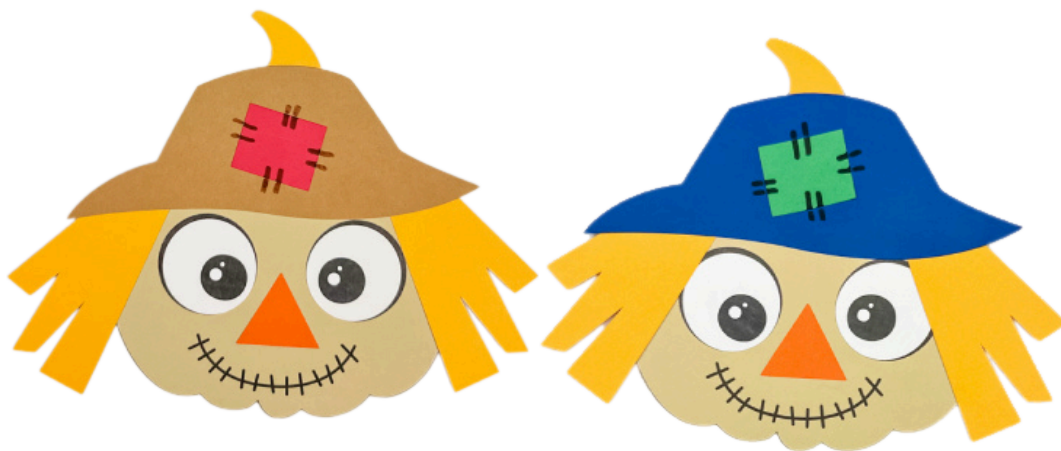

# Pumpkin Scarecrow Craft

There are a few way to do this craft depending on age and ability.

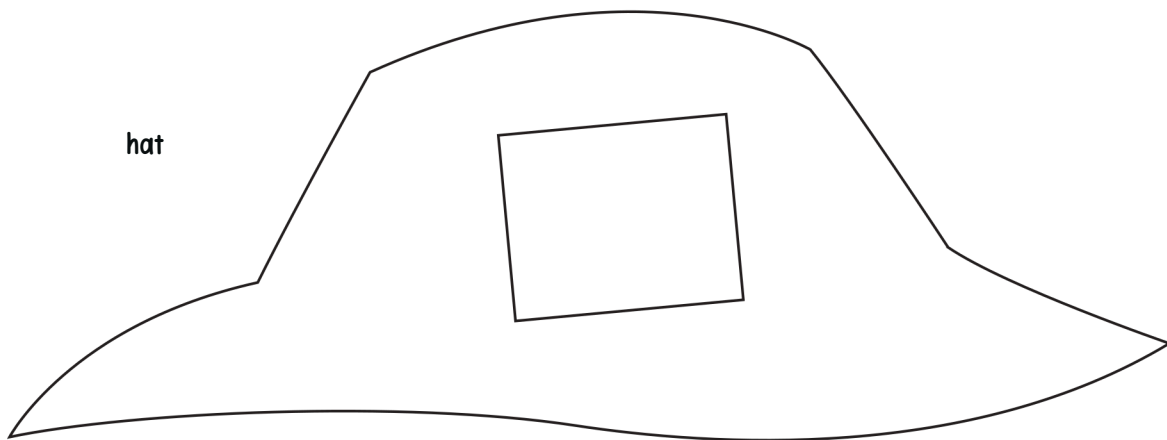

There is an easy color and glue version. A version to color, cut and glue (with more pieces).

And lastly, the version that can be printed out onto colored paper and is ready to cut and glue into place.

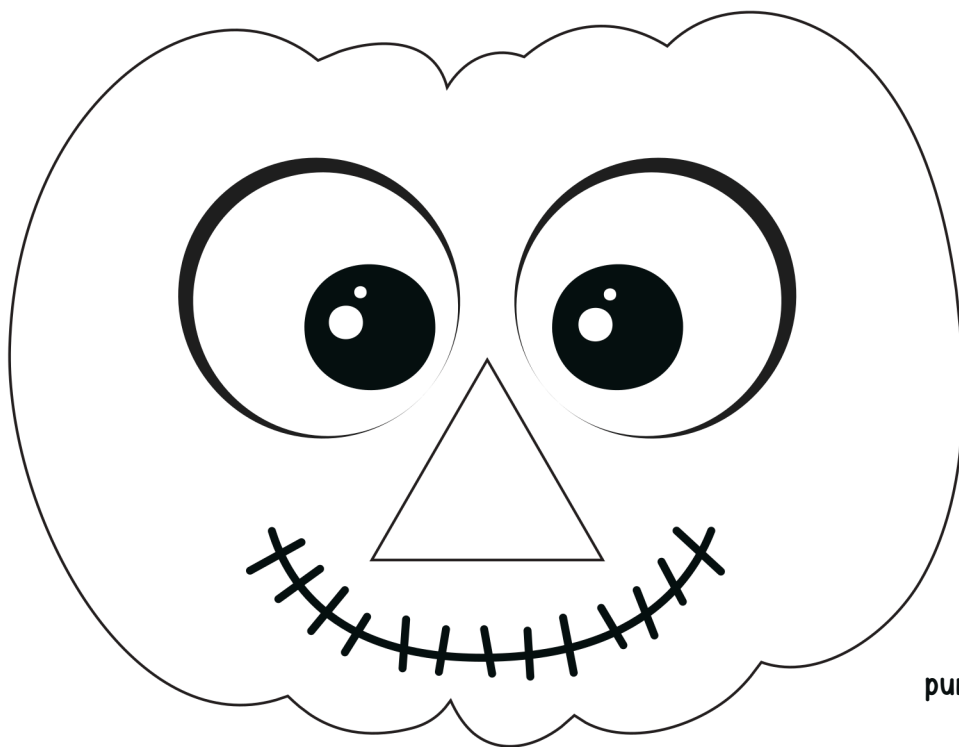

The last version is great if you want to do a small group and have everything set up and ready for your little ones. It's best to have one scarecrow completed so they can see the finished product.
